EDUCATION

Fanshawe College, London, ON
Diploma, Web Development, and Internet Applications – **(Jan 2022 – Apr 2023)**
GPA 4.16 / 4.20

Federal University of Agriculture Abeokuta (FUNAAB), Abeokuta Ogun State Nigeria
B.Sc, Computer Science – **(Sep 2008 – May 2014)**

Yaba College of Technology, Lagos, Nigeria, Nigeria
HND, Electrical/Electronic Engineering – **(May 1996 – Sep 1998)**

PROFESSIONAL EXPERIENCE

WEB DEVELOPER (VOLUNTEER) – (May 2023 – Present)
PREPPOD SYSTEMS INC.
60 BARBERRY Pl, KITCHENER N2M 4H9, ONTARIO, CANADA.

- Develops and maintains responsive and accessible web applications using HTML, CSS, and Vanilla JavaScript to enhance user experience and interface interactions.
- Collaborates with the design team to implement user interface mockups and wireframes, ensuring consistent branding and user-friendly designs
- Integrates RESTful APIs into web applications, optimizing data flow and enhancing backend functionalities.

- Implements and customizes Material UI components to create visually appealing and intuitive user interfaces

- Assists in the migration of legacy codes to React components, resulting in improved code organization and maintainability.

- Participates in code reviews and provides constructive feedback to team members, promoting code quality and best practices.

- Implements and maintains GitHub Actions for continuous integration, streamlining the development and deployment process.

WEB DEVELOPER – **(**Jan 2021 – May 2023)
INTEGER CONCEPT SOLUTIONS
SANGO IBADAN, OYOSTATE, NIGERIA

- Assisted in the development of mobile-responsive websites using HTML, CSS, and Bootstrap, ensuring cross-browser compatibility.

- Collaborated with the back-end team to integrate PHP and MySQL databases into web applications, facilitating dynamic content generation

- Utilized React Native to contribute to the development of mobile applications, optimizing performance and user experience

- Implemented and customized Tailwind CSS stylesheets, enhancing design flexibility and consistency across projects

- Conducted performance testing and optimization to improve website loading times and overall user experience.

- Assisted in the creation and maintenance of client documentation and provided technical support during project deployments.

- Contributed to the Bitbucket pipeline setup for automated testing and deployment, reducing human error and delivery time.

- Developed and maintained dynamic and interactive websites using WordPress, leveraging its user-friendly content management system to enable easy updates and modifications to site content.

- Customized WordPress themes and plugins to meet specific client requirements, ensuring seamless integration of desired functionalities and enhancing the overall user experience

- Contributed to the implementation of version control using Git, enabling better team collaboration and code management

- Participated in regular team meetings to share knowledge and learn about the latest web development trends and technologies.

- Collaborated with senior developers to troubleshoot and debug issues, improving code quality and stability.

- Worked with the team to implement third-party APIs to add interactive elements and enhance website capabilities

- Assisted in the creation of database schemas and queries using MySQL, optimizing data retrieval and storage.

SYSTEM SUPPORT ENGINEER Jul 2019 – Sep 2020
OKK GLOBAL RESOURCES LIMITED

- Prepared capital budget for short, medium- and long-term projects

- Managed vendors, contractors and customer engagement with relation to projects

- Developed processes, procedures and policies for the operation of IT related services

- Prepared contract documents and evaluation of tenders for maintenance on all network equipment

- Carried out daily activities of resolving IT issues on computer hardware and software

- Setup computer systems and installed relevant software to meet end user's requirement

- Repaired and maintained end user personal system, network and other technical related issues

- Setup computer peripherals and troubleshoot issues related to them for end users

- Designed and implemented Local area networks (LAN) and Wide area Network (WAN) to meet user requirements

- Troubleshot and supported issues on Local area networks (LAN) and wide area networks (WAN)

- Worked with other IT professionals, such as network administrators, system engineers, and developers, to resolve complex issues and improve overall IT infrastructure and services.
